

FARFISH UPDATE

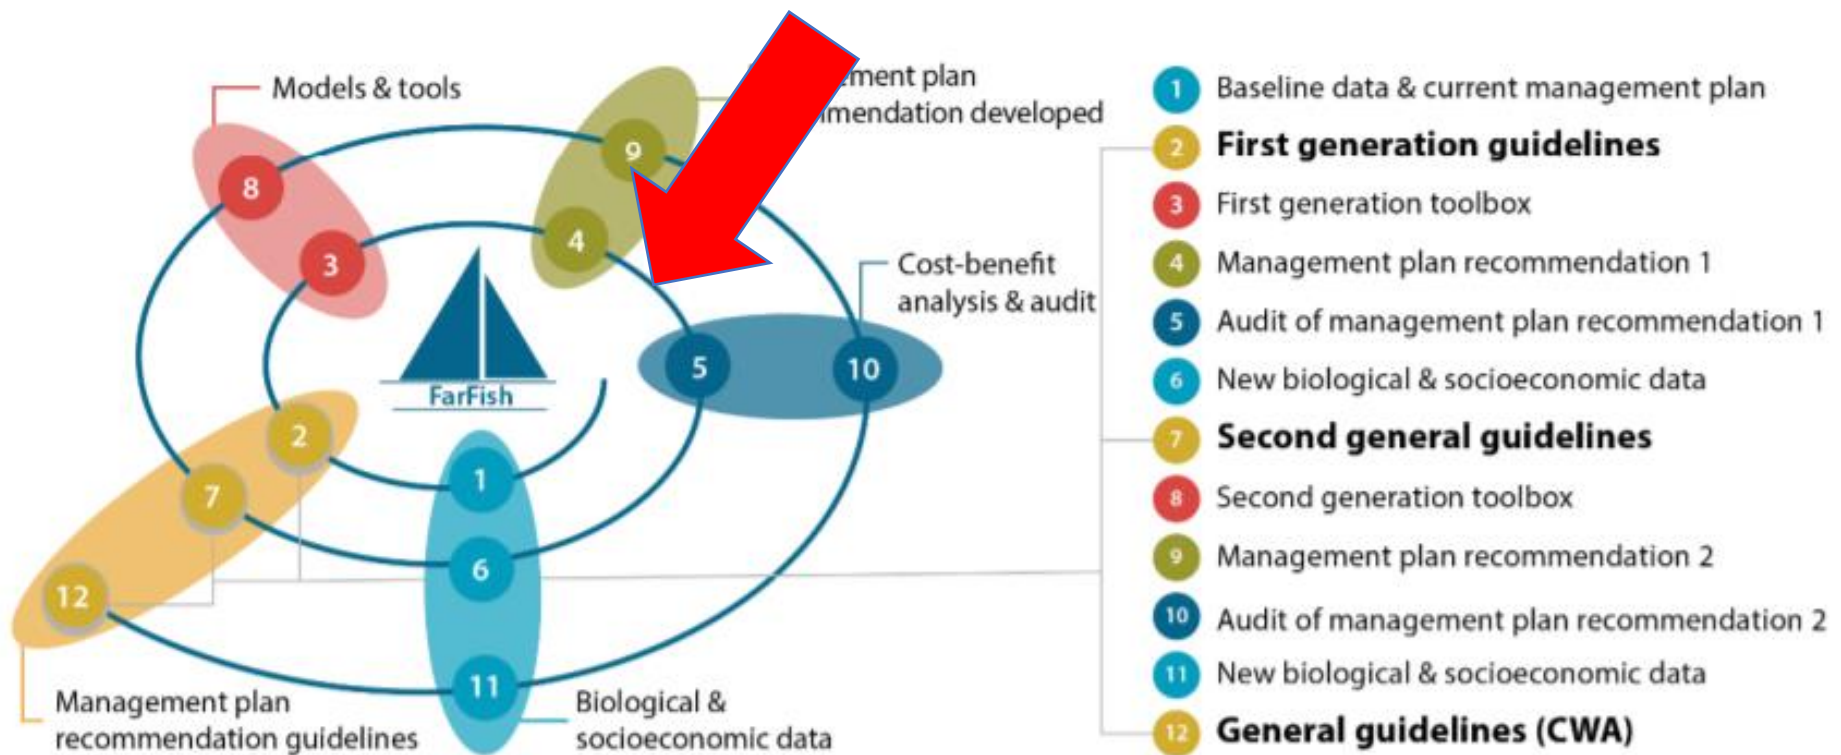

What has happened during the last 12 months

FarFish

Deliverables sent

The following deliverables have been sent from the WP on which the LDAC has contributed to as a member:

- **D1.1:** Executive report on the stakeholder hub: attributes, tools and feedback
- **D2.3:** Report on biological and ecological data in FFDB pilot
- **D2.4:** Templates and protocols for self-sampling
- **D3.1:** General guidelines for making MPs
- **D3.2:** First MP invitations submitted to case studies
- **D3.3:** Reports on evaluation of governance structures of the cases
- **D3.4:** Report on description of value chains and input-output structure of the CS
- **D4.1:** MP0 for each case study
- **D4.2:** Report from the MP kick-off meetings
- **D7.4:** Report on training needs assessment

Current ongoing work (April-June 2019)

- **D4.3:** MPs are being developed for each CS. Once approved, they will revert back to the LDAC and seek input from stakeholders to implement/revise OTs for second loop of the iterative process.
- **D7.5:** A diploma programme will be launched at the annual meeting in June. The idea of this programme is to provide training opportunities for fishing operators through a series of short courses on those areas identified where there are knowledge gaps, e.g. laws and regulations for fisheries business and value chain analysis.
- **D2.5:** Report on the evaluation of current stock assessment models used in the Case Study Areas.

What will happen next (2nd half of 2019)

- **D1.2:** Intermediate report on the Stakeholder hub implementation: lessons learnt and improvement areas for the second spiral interaction.
- **D3.5:** Draft 2: general guidelines for making MPs
- **D3.6:** Second MP invitation submitted to case studies.
- **D7.6:** Advanced post-graduate training program launched.
- **D7.7:** Tutor-web educational material ready.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 727891.
